
Take Our Sons And Daughters To Work Day A Special Experience At Metplas

Natrona Heights, PA- Since it's inception in 1981 Metplas has fostered a work environment that emphasizes commitment and loyalty to its employees and their families. That approach was on full display last Thursday as Metplas participated in the "Take Our Sons and Daughters to Work Day." According to the website www.daughtersandsonstowork.org the day benefits kids by "showing them the value of their education, helping them discover the power and possibilities associated with a balanced work and family life, and providing them an opportunity to share how they envision the future and begin steps toward their end goals in a hands-on and interactive environment ..."

Metplas held a contest for the kids that challenged them to create their version of the Metplas logo. While several interesting and creative logos were made, the work of Julia Olshansky, daughter of Metplas Accounts Receivable Karen Olshansky, was selected as the winner. Here is what she made:

Congratulations to Julia Olshansky and the rest of the participants in the contest. The other logos will be on display in the Metplas lobby so please stop by for a visit to see their creativity for yourself.

About Metplas

Metplas is an ISO 9001-2008 registered manufacturer that specializes in precision machined plastics and metals. Metplas also offers waterjet cutting, assembly and copper busbar fabrication. Metplas machines parts from materials such as GPO3, FR4, G10, Delrin, Extren and a myriad of other engineered

plastics and alloys. More information can be found at www.metplas.com. They can be reached by phone at 800-827-1900 or email mikec@metplas.com.
